

Florentin-Cristian Fusneica

DEVOPS ENGINEER · CI/CD / BUILD SYSTEMS / PLATFORM

CONTACT

-  Bucharest, Romania
-  +40 771 434 701
-  fusneica.florentin.cristian@gmail.com
-  LinkedIn
-  GitHub

BEST FIT

- DevOps / SRE pipeline ownership
- Platform & build engineering
- Release / CI/CD migration
- Remote-first · Bucharest hybrid

CORE STACK

- CI/CD: Jenkins, Groovy, GitHub Checks
- Cloud: Azure, PowerShell, Python
- Build: .NET, MSBuild, Artifactory
- Scripting: C#, Groovy, JavaScript
- Config: Ansible, Docker

STRENGTHS

- Pipeline migration (legacy cloud → Azure)
- Signing & artifact hardening
- Agent reliability & coverage
- Mentoring & onboarding

DELIVERY PRACTICES

- Multibranch pipeline-as-code
- Cobertura coverage gates & GitHub Checks
- Release-branch automation

LANGUAGES

- Romanian – native
- English – fluent

CERTIFICATIONS

- Java 1 Associate (OCA)
- C# Advanced

EDUCATION

- BSc Computer Science
- University of Bucharest, 2019–2022

PROFILE

DevOps engineer with 4+ years building and migrating enterprise CI/CD platforms. Owns release-train integration — packaging, host integration, QA, and rollback — across multibranch Jenkins estates. Strongest in Azure migration, Ansible, Cobertura gates, and .NET release automation.

EXPERIENCE

DevOps Engineer Sep 2025 – Jul 2026
Alten · Autodesk — Build & Release Platform

Azure · Jenkins · Groovy · PowerShell · .NET · Artifactory

- Led **cloud build-agent migration** (legacy farm → Azure) across 2 add-on CI/CD estates, 4 annual release tracks, and 4+ packaging repos — completed cutover on all active tracks with Azure blob procurement, Artifactory fallback, and Jenkins refactor.
- Designed **Jenkins multibranch pipelines** with Active Choices reactive parameters, shared Groovy libraries, and T4-based assembly versioning — standardized onboarding so packaging teams adopt new branches without pipeline forks.
- Hardened **artifact and signing pipelines** with fail-fast Authenticode checks and Artifactory SSO credential chains — restored signing verification on all active release tracks after .NET 10 upgrade.
- Implemented **GitHub Checks** and Cobertura coverage reporting in CI across packaging repos and cross-repo add-on delivery.
- Improved **CI reliability** via durable agent workspace layout (separate cache and workspace volumes) and flaky coverage triage — stabilized long-running build farms.

.NET Developer Sep 2022 – Jul 2025
Cognyte

C#/I.NET · Ansible · Jenkins · Groovy · Bitbucket · Wix

- Operated **40+ microservices** (15 core platform services) — feature delivery, debugging, performance tuning, and production deployment.
- Built **end-to-end CI/CD automation** using Ansible, Jenkins, Groovy, and Wix; standardized deployment patterns across all services.
- Wrote **Ansible roles** for deployment orchestration; led DevOps training and onboarding.

Earlier Roles 2021 – 2025
CS Vision · Independent Contractor

- Intern (CS Vision): ASP.NET MVC / WPF maintenance and Java → WPF migration.
- Contractor (2025): **ERP modernization** scripts and React automation.

PROFESSIONAL DEVELOPMENT

Software Architect Course 23 Jun – 3 Sep 2026
Skillab · In progress · 3 modules / 19 lectures

DDD · Event-driven · Kubernetes · AWS · Kafka · Docker · IaC · ATAM

- Programme: requirements, DDD/event-driven design, distributed systems, quality attributes, **ATAM**, security, and threat modelling.
- Hands-on **capstone**: full solution architecture with diagrams, ADRs, Docker/Kubernetes/AWS workshops, CI/CD & IaC pipelines, OpenTelemetry/performance testing, and assessed presentation.

PERSONAL PROJECTS

FamilyHub Manager 2024 – Present
Personal project · 8-repo monorepo

Django · React · PostgreSQL · Celery · Docker · Playwright · MCP

- Estate-management platform: Django REST + React PWA — properties, tenants, rent/utilities, budget, document OCR; **MCP server** for domain APIs, Docker Compose, Playwright E2E, GitHub Actions CI.
