PROFILE

DevOps engineer with 4+ years building and migrating enterprise CI/CD platforms. Owns release-train integration — packaging, host integration, QA, and rollback — across multibranch Jenkins estates. Strongest in Azure migration, Ansible, Cobertura gates, and .NET release automation.

EXPERIENCE

DevOps Engineer Sep 2025 – Jul 2026
Alten · Autodesk — Build & Release Platform

- Azure · Jenkins · Groovy · PowerShell · .NET · Artifactory
- Led **ECS→Azure CI migration** for Dynamo for Revit and Steel Connections add-ons across multiple annual release branches — Azure blob procurement, Artifactory fallback, AzCopy automation, and Jenkins pipeline refactor.
 - Split monolithic CI/CD work into **reviewable per-feature PR stacks** with decoupled merge paths for independent delivery.
 - Delivered **durable cache**, centralized ci-config, parallel Artifactory downloads, and dotnet-coverage reporting.
 - Hardened **Garasign/Authenticode signing** with fail-fast checks on .NET 10 release branches; refactored Jenkins multibranch pipelines with reactive parameters and shared Groovy libraries.
 - Built **agent knowledge repos** and orchestrated CI babysit workflows to support team handoff and release continuity.

.NET Developer Sep 2022 – Jul 2025
Cognyte

- C#/.NET · Ansible · Jenkins · Groovy · Bitbucket · Wix
- Operated **40+ microservices** (15 core platform services) — feature delivery, debugging, performance tuning, and production deployment.
 - Built **end-to-end CI/CD automation** using Ansible, Jenkins, Groovy, and Wix; standardized deployment patterns across all services.
 - Wrote **Ansible roles** for deployment orchestration; led DevOps training and onboarding.

Earlier Roles 2021 – 2025
CS Vision · Independent Contractor

- Intern (CS Vision): ASP.NET MVC / WPF maintenance and Java→WPF migration.
- Contractor (2025): **ERP modernization** scripts and React automation.
